

Cargo/Vendo GT

100% Electric #discoverthepossibilities

Powered by:

Features

Quality as per Global Markets!

The new Cargo/Vendo GT has been produced according to the highest quality and safety standards in the Automobile industry. Homologated to European (WVTA), USA (DOT) and many other markets, the new Cargo/Vendo GT can be driven in more than 30 countries around the world.

Discover the possibilities!

Our new Cargo/Vendo GT has a huge cargo space with multiple door configurations and lots of autonomy. A solid business case for your next business start-up.

Silent & 100 % Electric

The eTuk Cargo/Vendo GT is silent & 100% electric.

More Mileage

With more than 125 km range with 15KwH Li-ion batteries, the new Cargo/Vendo GT is perfect for all your business needs.

Low Maintenance Costs

Less moving parts means less part failures and downtime well as lower overall maintenance costs.

High Return on Investment

Large cargo space, low maintenance costs, cheap & clean electric fuel and with her looks also a marketing killer, the e-Tuk Cargo/Vendo GT provides a solid business case and a high Return on Investment.

Vehicle Intelligence System

The Vehicle Intelligence System (VIS) measures the performance of the vehicle & battery, shows live tracking, and with the add-on of sensors to the eTuks many more items can be measured. With the assembly of a hardware tool inside the eTuk a big number of parameters are measured. The parameter values are provided on the VIS platform, so that fleet owners can manage, be proactive and secure costs in an optimal way.

Small & big data provider

We analyze how cities and their transport networks/solutions are developing, to learn to manage urban systems which are becoming larger and more complex. Smart-driven vehicles are what we provide. Digital assistance is important to make our jobs easier.

Batteries That Meet Your Needs

The battery is the heart of an eTuk. Our team at eTuk Factory creates the functionality profile for your business case and provides you with the best-suited lithium-ion battery pack which is completely assembled in-house for your eTuk.

Quick facts of Lithium-ion Variants

						
	Range	Weight	Charging Time	Battery Lifecycle	Battery Life	Maintenance Free
15 Kwh	>130 Kms	140 Kg	5 hrs	>1000	3-5 years	✓

We ensure every battery pack fitted in eTuk has

						
Overcharge Protection	Undercharge Protection	Over Temperature Protection	Under Temperature Protection	Balancing Protection	Insulation Resistance Protection	Fault Code Display
